Board of Supervisors: Susan Drummond · Scott Lambert · Richard Orlow Township Manager: John Nagel

June 3, 2020

To the Board of Supervisors and Citizens of East Whiteland Township:

We are pleased to present to you the Comprehensive Annual Financial Report of East Whiteland Township for the fiscal year ended December 31, 2019. A complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants is presented herewith.

This report consists of management's representations concerning the finances of East Whiteland Township. Consequently, responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Township's management. To the best of our knowledge, the information presented in this report is accurate in all material respects and is reported in a manner designed to fairly represent the financial position and results of operations of the funds and component units of East Whiteland Township. All disclosures necessary to enable the reader to gain an understanding of East Whiteland Township's financial activities have been included.

East Whiteland Township's financial statements have been audited by Maillie LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of East Whiteland Township for the fiscal year ending December 31, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures of the financial statements; assessing the accounting principles used and significant estimates by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that East Whiteland Township's financial statements for the fiscal year ended December 31, 2019, are fairly presented in conformity with GAAP. The independent auditors' report is presented at the beginning of the Financial Section of this report.

The purpose of this report is to provide readers with useful information concerning the Township's financial position and operations. Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. East Whiteland Township's MD&A can be found immediately following the report of the independent auditors.

Profile of the Township

East Whiteland Township is located in the middle of the Chester Valley in east-central Chester County, about 25 miles west of central Philadelphia. With about 11 square miles of land area, the Township measures slightly more than four miles in an east-west direction and 2.8 miles from north to south.

East Whiteland Township is located in a diverse and dynamic suburban area traversed by several important highways, with an excellent mix of housing and expanding opportunities for employment, making it one of the most desirable communities in the region in which to live and work. As part of the Great Valley School District, East Whiteland houses the middle and senior schools as well as the K.D. Markley Elementary School. East Whiteland is also home for Immaculata University and has campuses for the Drexel University Lebow College of Business and Penn State University Great Valley.

Whiteland Township was part of the Welsh Tract purchased from William Penn in 1684 by a group of Quakers. In 1704, part of the tract became Whiteland Township. In 1765, by decree of the County Court the Township was divided into East and West Whiteland Townships. Historically, East Whiteland Township was predominantly agricultural, with several crossroad villages strung along Lancaster Pike and mills along Valley Creek. The arrival of railroads in the mid 1800's led to the development of several mineral extraction businesses followed by construction materials processing, steel fabricating, petroleum and natural gas storage and transmission, and disposal of waste materials. With the completion of route 202 through the Township in the 1960's, East Whiteland evolved into a major office employment center, and some of the previously dominant businesses ceased operation while others continue to function in a community that has changed a great deal over the years. In 1950 the Township population was 1,740. The current estimated resident population is 11,000, however, the number of people that work in the municipality on a daily basis is more than 30,000.

East Whiteland Township is governed by a three member elected Board of Supervisors that serves as the Township's legislative and policymaking body. The Board members are elected at large to staggered six-year terms. East Whiteland Township operates under the auspices of the Pennsylvania Second Class Township Code. The Board of Supervisors is empowered to appoint professionals to assist in the operation of the Township and to furnish advice and counsel on technical matters. Additionally, the Board appoints all the members of the various boards and commissions, including the Planning Commission and Zoning Hearing Board. The Tax Collector and three member Board of Auditors are elected positions. Levying taxes and authorizing appropriations are the responsibility of the Board of Supervisors.

The Board of Supervisors is assisted by a full-time appointed Township Manager who is responsible for the day-to-day operations of the Township. The Township provides a full range of municipal services. The public safety programs include police, fire protection, building inspection, planning, zoning, emergency management and code enforcement. East Whiteland Township partners with the East Whiteland Township Volunteer Fire Association to provide emergency services. The countless hours spent by the volunteers in protecting the community are greatly appreciated. Public works programs include street maintenance and repair, street lighting, snow removal, traffic signalization, street markings, sewer system maintenance, storm sewer and storm water basin maintenance and maintenance of Township buildings and park facilities. The Township owns and maintains numerous community and neighborhood parks and nature areas and supports the Friends of Summer Stage to provide free summer concerts in Valley Creek Park.

Major Initiatives

Following are some of the major initiatives undertaken by the Township in 2019:

Commercial and Residential Development continue to be a major focus in East Whiteland Township. Our staff works with the developers to ensure the Township interests are protected and the Comprehensive Plan goals are met.

- ➤ Traffic issues In 2014, the Township secured an ARLE grant of \$445,000 to upgrade traffic signals in the Township to reduce traffic congestion. This project began in 2018 and was fully implemented in 2019. The Route 30 Corridor Master Plan for the widening of Rt. 30, land use, and pedestrian traffic was completed during 2018. In addition, the Act 209 Transportation Study was completed and a transportation impact fee to be imposed upon new subdivision and new development to fund transportation capital improvements in accordance with a transportation capital improvements plan and a roadway sufficiency analysis.
- ➤ Multi-year Financial Management Plan In 2018, with a grant from the Commonwealth of Pennsylvania Department of Community and Economic Development and its Early Intervention Program, the Township worked with consultants to develop a multi-year financial management plan that included an assessment of operations and financial condition. The Township had recently relied on non-recurring revenues to cover recurring operating costs, pension costs are increasing and unfunded liabilities are growing. A baseline projection showed a deficit of \$1.5 million in 2019 with deficits continuing through 2023 absent corrective action. Ultimately, to close the deficit, an increase to the local earned income tax rate was passed for 2019. For 2019 the earned income tax rate was increased to 0.75% from 0.50%. The five year forecast was rolled forward and updated in 2019 and utilized as a tool for planning and budgeting.

Controlling health insurance costs continues to be a primary focus and the Township's AFSCME and Police employees moved to a plan with design changes that reduced current costs and cost growth while still providing quality coverage for its employees in May 2019 and in February 2020, respectively.

Fund Balance Policy

The Township has adopted GASB Statement No. 54, which redefined how fund balances of the Governmental Funds are presented in the financial statements. Fund balances are classified as follows: Non spendable, Restricted, Committed, Assigned and Unassigned.

Long-Term Debt Activity

For more detailed information on long-term debt activity, please see Notes to the Basic Financial Statements (Note F, Long-Term Debt).

Capital Asset Activity

For more detailed information on capital asset activity, please see the Notes to the Basic Financial Statements (Note C, Capital Assets).

Local Economy

Located in east-central Chester County with its highly trained and educated workforce, desirable quality of life, competitive tax structure and close proximity to Philadelphia, PA, East Whiteland Township has a diverse and dynamic economy, boasting over 1,000 businesses.

Due to the coronavirus (SARS-CoV-2) pandemic and associated societal and business closures ordered by the Commonwealth of Pennsylvania, the general outlook for the economy of East Whiteland Township is uncertain. Locally planned continues to move into production in 2020. However, the Township's economy and large tax base is expected to slow in the near term as a decrease in earned income tax revenue in the range of 6.3% - 12.6% is anticipated before continuing to grow, driven in large part by business and commercial development, and by new residential construction. East Whiteland Township is home to the Great Valley Corporate Center and serves as U.S headquarters and Regional Headquarters to several national and international firms including Saint-Gobain, Vishav and Cerner Corporation. Vanguard has plans to add 500,000 square feet of office space and new jobs are expected over the next several years. Although there are major employers in the Township, the employment base is not dominated by one business or industry. The Township's business base consists of software development and application firms, telecommunication firms, e-commerce companies, design and manufacturing businesses, and pharmaceutical research firms. As noted, the Township hosts corporate and regional headquarters operations as well as trade and professional associations, retail firms, wholesale distributors, and business and financial services. Noting the list of Principal Employers in the Statistical Section of this report, the top employers comprised approximately 32% of the workforce in 2019. This diversity would provide stability to weather downturns in the economy.

During 2019, land development and subdivision activity continued. A number of mixed use developments including over 1,000 units of housing are expected to be completed over the next five years. There is also approximately 800,000 square feet of commercial properties under construction or pending development. The Township has updated and will continue to update some aspects of the zoning for the Route 30 Corridor to encourage redevelopment.

A more detailed analysis of the Township's overall financial condition during the fiscal year ended 2019 is included as part of Management's Discussion and Analysis section of this report.

Long-Term Financial Planning

The Board of Supervisors and Township staff is committed to providing value to the taxpayers by maintaining quality service levels and offering new benefits whenever the opportunity presents itself and the Township's fiscal position permits. To accomplish this, the Township regularly evaluates its revenue generating strategy. The Township has also developed and maintains a multi-year financial management plan and multi-year financing plans for replacement of capital assets and infrastructure improvements.

Also, as a part of sound fiscal planning, the Township has adopted a fund balance policy that is compliant with GASB 54 for determining fund balance categories and based on recommendations from the Government Finance Officers Association for maintaining a fund balance in the General Fund of approximately two months of expenditures, or a range of fifteen to twenty percent of General Fund appropriations. Due to the uncertainty associated with the coronavirus pandemic, the Board of Supervisors assigned \$4,050,000 of fund balance to tax rate stabilization.

Internal Controls

The management of the Township is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Township are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled and maintained to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that the Township's objectives are met. The concept of reasonable assurance recognizes that:

- 1. The cost of a control should not exceed its benefit, and
- 2. The evaluation of cost and benefits requires estimates and judgments by management.

All internal accounting control evaluations occur within the above framework. We believe that the Township's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of transactions and maintenance of asset accountability.

In addition to the above controls, the Township maintains budgetary accounting controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board of Supervisors. Activities of all Township funds, with the exception of developers' escrow funds and pension trust funds, are included in the annual appropriation budget. The annual budget process officially begins in July of each year with the request for budget proposals sent to the Township's department heads. Throughout the course of September and October, requests for funding are submitted and reviewed by the Township management. A proposed annual budget is submitted to the Board of Supervisors in October or November. The Board holds a public hearing on the proposed budget and the process culminates with a vote for adoption by the governing body in December. The Township's fiscal year begins on January 1st and ends on December 31st. All annual appropriations lapse at year-end.

Although the Township maintains the legal level of control established by law for its operating budget, the Board of Supervisors has also established an internal budgetary control system at the departmental level. Each department is required to operate within the annual departmental budget established by the Board of Supervisors.

As demonstrated by the statements and schedules included in the financial section of this report, the Township continues to meet its responsibility for sound financial management.

Awards and Acknowledgements

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to East Whiteland Township for its comprehensive annual financial report for the fiscal year ended December 31, 2018. This was the fourth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Preparation of this report would have been impossible without the hard work of the Finance Department staff, not just in the compilation of information at year-end, but in maintaining the Township's financial records and fiscal control system throughout the year. We also wish to thank our auditors, Maillie LLP, for their expertise and assistance throughout this process.

We greatly appreciate the ongoing support and guidance we receive from the Board of Supervisors.

Respectfully Submitted,

John B Nagel

Independent Auditors' Report

To the Township Supervisors East Whiteland Township Frazer, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of East Whiteland Township as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise East Whiteland Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

East Whiteland Township's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Township Supervisors
East Whiteland Township
Frazer, Pennsylvania

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Emphasis of Matter

For the year ended December 31, 2019, East Whiteland Township adopted new accounting guidance, implementing Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

As discussed in Note Q to the financial statements, subsequent to year end, a global pandemic due to the spread of the COVID-19 coronavirus caused the United States government to declare a national emergency. The pandemic has resulted in economic uncertainties which have the potential to have a significant impact on all Township operations. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 17 through 27, budgetary comparison information on pages 87 and 88, pension plan information on pages 89 through 97 and post-employment benefits other than pension plan information on pages 98 through 100 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise East Whiteland Township's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

To the Township Supervisors East Whiteland Township Frazer, Pennsylvania

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Oaks, Pennsylvania June 3, 2020

Maillie Ll

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis provides an introduction to the Township's basic financial statements. The basic financial statements include:

- 1. Township-Wide Financial Statements
- 2. Fund Financial Statements
- Notes to the Financial Statements.

Additional information is also provided to supplement the basic financial statements.

Township-Wide Financial Statements

The Township's annual report contains two Township-Wide Financial Statements. They are the *Statement of Net Position* and the *Statement of Activities*. These statements provide both long-term and short-term information about the Township's overall financial status. Financial reporting at this level is similar to that found in the private sector with its basis in full accrual accounting and the elimination or reclassification of internal activities.

The Statement of Net Position provides information on all of the Township's assets and liabilities, with the difference reported as Net Position. Over time, increases or decreases in net position serve as a useful indicator of whether the Township's financial position is improving or deteriorating. Evaluation of the overall economic health of the Township would include other non-financial factors such as changes in the taxpayer base or the condition of the Township's infrastructure, in addition to the financial information provided in this report.

The Statement of Activities reports how the Township's net position changed during the current fiscal year. All current year revenues and expenditures are included in this report regardless of when cash is received or paid. An important purpose of the Statement of Activities is to show the financial reliance of the Township's various activities or services on revenues provided by the Township's taxpayers.

Both Township-Wide Financial Statements are divided into two categories:

- Governmental Activities: Most of the Township's basic services are included here, such as general government, public safety, public works and recreation. These activities are principally supported by taxes and intergovernmental revenues.
- Business-Type Activities: Services which are intended to recover all or most of their costs through user fees and charges. The Township's sewer system is the only business-type activity.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

Fund Financial Statements

The Fund Financial Statements provide more detailed information about the Township's Funds, focusing on its most significant or "Major Funds" - not the Township as a whole. A fund is an accountability unit used to maintain control over resources segregated by specific sources of funding or spending on particular programs.

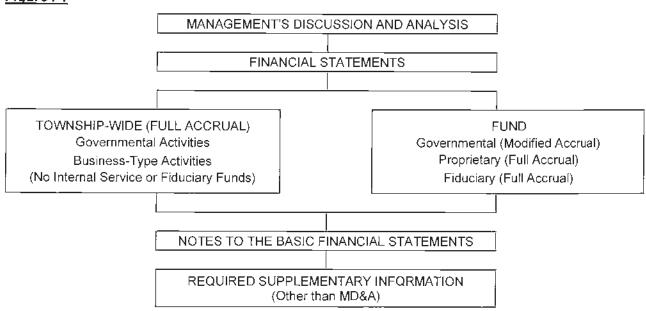

- Some funds are required by state law or bond covenants.
- The Township establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The Township has three kinds of Funds:

- Governmental Funds: Most of the Township's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the Governmental Funds' statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. Because this information does not encompass the additional long-term focus of the Township-Wide statements, additional information is presented that explains the relationship (or differences) between them.
- Proprietary Funds: Services for which the Township charges a fee are generally
 reported in Proprietary Funds. Proprietary Funds are reported in the same way as the
 Township-Wide statements. The Township's Enterprise Funds (one type of Proprietary
 Fund) are the same as its business-type activities but provide more detail and additional
 information, such as cash flows.
- Fiduciary Funds: The Township is the trustee, or fiduciary, for assets that belong to others, such as the pension plans. The Township is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The Township excludes these activities from the Township-Wide financial statements because it cannot use these assets to finance its operations. The Township's Fiduciary Funds are the Police Pension Fund, the Non-Uniformed Pension Fund, the Firefighter Pension Fund, and the OPEB Trust Fund. The Township also has a Custodial Fund used for deposits the Township holds as prepayments for engineering reviews and other developer costs paid by the Township. When the projects are completed, any balances are returned to the developer

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

FINANCIAL HIGHLIGHTS

- Total Net Position Assets and Deferred Outflows of Resources exceeded liabilities by \$38,186,021 for the fiscal year reported. This total includes both governmental and business-type (Sewer) activities. Capital Assets total \$28,177,298, which includes property and equipment net of accumulated depreciation and reduced for outstanding debt related to the purchase or construction of capital assets. The balance is unrestricted assets of \$9,384,062 and restricted assets of \$624,661 for highway and street projects. Total liabilities include \$7.7 million in outstanding debt for GOB governmental bonds and \$16.1 million for GOB sewer bonds. Although the Township's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.
- Cash and Investments Total Township assets included \$24,953,117 in cash and cash equivalents and \$252,052 in financial investments, \$15,121,394 in the Governmental Funds and \$10,083,775 in the Sewer Fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

- Governmental Fund Balances At the end of 2019, the Township's governmental funds' combined ending fund balance was \$17,489,068, an increase of \$3,611,243 from the prior year primarily due to an increase in the earned income tax (EIT) rate from 0.5% to 0.75% resulting in revenues that were \$3,221,000 higher than the prior year. Of the current balance, \$624,661 is restricted for highway and street projects, and \$16,864,407 is assigned for the various purposes on the face of the balance sheet.
- Total General Obligation Bonds Outstanding decreased by \$1,010,000 from 2018 due to principal reductions in the four current general obligation bond issues.

Governmental Activities

Governmental Revenue - 2019

As indicated in the Condensed Statements of Activities (Figure I-3) and displayed in Figure I-4, the primary source of revenue for the township is local taxes which include Earned Income Taxes, Local Services Taxes, and Real Estate (Property and Transfer) Taxes.

- Earned Income Taxes (EIT) totaling \$9,741,890 and Local Services Taxes (LST) totaling \$1,322,836 were 57% and 8% of revenue respectively. EIT exceeded 2018 reported collections by \$3,221,365 (49%) and LST increased by \$59,939 (5%). The increase in EIT is attributed to an increase in the EIT rate to 0.75% from 0.50%.
- Real Estate Taxes totaled \$757,124 (4% of revenue), an increase of \$27,463 (4%) in 2019 related to new construction and reassessments.
- Transfer Taxes totaled \$1,199,970 (7% of revenue), a decrease of \$1,791,333 (-60%) from 2018 as there were several large commercial properties that transferred ownership in 2018 that were non-recurring in 2019

Service Revenue mostly related to permits, public safety fees, engineering reviews, grants and state aid totaled \$1,995,593 (12% of revenue). This was \$1,689,221 less than the prior year primarily related to decreased permit fees related to development in the Township (-\$1,400,000), and less traffic impact fees collected from developers to fund transportation improvements in accordance with the Township's transportation capital improvements plan (-\$200,000).

In 2019 the Township received capital grant funding of \$503,494 (3% of revenue) through the State's Automated Red Light Enforcement Program Project Funds.

Governmental Expenses - 2019

As indicated in the Condensed Statements of Activities (Figure I-3) and displayed in Figure I-4, total expenses of the Township's governmental activities, public safety programs account for \$9,312,035, or 63% of the total expenses for the Township's governmental activities. Public safety includes the police, codes, and planning & zoning departments plus a full-time staff of 10 firefighters/EMTs who complement the local volunteer fire company. General Administration, and Highway and Street Services account for 12% and 22% respectively of the total expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

Total expenses decreased \$788,173 (-5%) as follows:

- Public Safety decreased by \$583,322 (-6%) in 2019, primarily due to decreased medical costs in our police plan (-\$272,000) and decreased premiums in our fire plan (-\$75,000), a one-time contribution to the local volunteer fire company for two new fire trucks in 2018 (-\$300,000), and decreased postretirement benefit expense (-\$570,000). These decreases were offset by funding of post-retirement benefits that was deferred in the prior year (\$202,000), increased police pension expense (\$118,000), contract annual wage increases for all public safety departments and new police hires, offset by reduced part time hours and overtime (\$240,000), and increased information technology costs due to system changes and upgrades (\$75,000).
- General Government expenses decreased by \$193,313 (-10%) in 2019, primarily due to a decrease in medical insurance premiums due to a less costly plan (-\$62,000), a decrease in pension expense (-\$61,000), a decrease in information technology related payroll and expense (-\$42,000) and lower engineering and solicitor costs and other professional services costs related to special projects and studies (-\$154,000), including DCED Early Implementation Program, the Route 30 Corridor Study and the Act 209 Traffic Impact Study. These decreases were offset by an increase in professional services related to labor contract negotiations for the East Whiteland Police Association and AFSCME contracts that expired December 31, 2018 (\$55,000), an increase in EIT tax collection fees due to the increase in EIT tax collected (\$20,000), and funding of post-retirement benefits that was deferred in the prior year (\$51,000).
- Culture and recreation expenses increased \$46,482 (23%) in 2019 due to a change in the summer camp program from half day to full day.

Governmental Net Position - 2019

As a result of the 2019 Governmental Activities noted above, East Whiteland recognized a \$2,474,730 increase in Net Position. The ending Net Position remains healthy at \$11.7 million including \$14.9 million in cash to manage annual expenses if revenue timing is an issue.

Business-Type Activities

The Township's only business-type activity is its sewer operation. East Whiteland Township's sewer system includes 13 sewer pumping stations and approximately 77 miles of pipeline. The Township accepts flows and collects sewer rental fees from the adjoining municipalities of East Goshen Township, Charlestown Township and Malvern Borough. The Township, in turn, pays sewer rental fees to neighboring Tredyffrin Township and East Goshen Township, and a public utility company for conveyance and to the Valley Forge Sewer Authority for waste treatment.

• Service Revenue in fiscal year 2019 was \$4,745,887 or \$369,999 less than 2018 due to a decrease in sewer rental fees of \$131,000 related to a reduction in water usage by high volume customers, a decrease in connection fees of \$43,000, and a decrease in tapping fees of \$279,000. Revenue from tapping fees in 2019 is still significant at \$944,000. A 2019 insurance reimbursement of \$85,000 covered emergency repairs and by-pass charges due to a sinkhole at one of the Township's pump stations.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

- Sewer Expenses increased \$704,000 primarily due to increases in conveyance costs (\$513,000), treatment costs (\$94,000), waste treatment plant construction charges (\$105,000), pump station emergency repairs due to a sinkhole (\$90,000), and offset by a decrease in medical insurance premiums due to a less costly plan (-\$34,000) and decreased postretirement benefit expense (-\$81,000).
- The Sewer Fund Net Position at the end of 2019 improved by \$1,172,043 related to contributed capital of \$182,000 from the dedication of the Townes of Malvern Phase 1 sanitary sewer system, insurance reimbursement of \$395,000 for capital construction to rebuild the pump station that was lost due to a sinkhole, reimbursements of prior year waste treatment costs of \$288,000, tapping fees of \$944,000, and offset by increased sewer expenses of \$704,000 described in the paragraph above. The unrestricted net position of the Proprietary Fund amounted to \$8,229,857.

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

Governmental Funds

Governmental Funds are reported in the Fund Statements with a short-term focus on the inflow and outflow of financial resources. This information is valuable in assessing resources available for upcoming financial requirements. Governmental Funds reported ending fund balances of \$17,489,068. Of this year-end total: \$4,050,000 is assigned for tax rate stabilization, \$500,000 is assigned for pension stabilization, \$350,000 is assigned for other postemployment benefits, \$650,000 is assigned for storm water management, \$2,650,000 is assigned for volunteer committee resources for such purposes as the acquisition of open space, the protection of historic, natural and scenic resources, to establish trails, bike paths, sidewalks and pathways, and energy conservation, \$3,250,000 is assigned for the renovation of municipal infrastructure, \$2,093,868 is assigned as budget contingency, \$726,023 is assigned for capital improvement projects, \$500,000 is assigned for equipment, \$1,038,779 is assigned for highway and street projects and \$1,055,737 is assigned for park development projects. Restricted fund balances include \$624,661 for highway and street projects.

Major Governmental Funds - The General Fund is the Township's primary operating fund. The General Fund balance at fiscal year-end was \$7,043,868, an increase of \$2,516,243 over 2018. The General Fund balance is 57% of our 2019 operating expense and 45% of revenue.

The Capital Improvement Fund is a reserve fund for various capital purchases and improvements. The fiscal year-end balance for the Capital Improvement Fund was \$8,726,023. This is an increase of \$725,728 over the ending fund balance for 2018, resulting from an excess of revenues over expenditures in 2019 from non-recurring revenue that was transferred from the General Fund and assigned for specific projects.

Proprietary Funds

The only Township Proprietary Fund is the Sewer Fund, which was discussed previously under business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

GENERAL FUND BUDGETARY HIGHLIGHTS

During 2019, there were budget amendments to the original approved General Fund budget to recognize additional revenue of \$180,000 from real estate transfer taxes collected, \$400,000 from earned income tax, \$31,530 from summer camp program fees and \$26,000 from interest income, as well as reductions in building permit revenue from development of \$200,000, and to make supplemental appropriations netting to \$113,000 for certain General Fund operating expenditures.

General Fund actual revenues were higher than the final amended budgeted revenues by \$777,524 primarily due to earned income taxes which exceeded budget by \$640,890, and unbudgeted insurance claims reimbursements of \$120,000.

Overall, general fund actual expenditures were \$1,128,024 better than the final budget. The services that had significant favorable variances were as follows:

General Government	\$146,309
Police	
Code Enforcement	
Public works, highways and streets general services	\$75,526
Public works, highways and streets winter maintenance	\$57,893
Public works, road maintenance and repair	\$32,441

On the schedules of revenues and other financing sources and the schedule of functional expenditures by activities and other financing uses for the General Fund, the net position is better than the budget by \$1,405,548 due to the reasons listed above and offset by the excess of revenues over expenditures in 2019 that was transferred out to the Capital Improvement Fund.

CAPITAL ASSETS - NET OF DEPRECIATION

The Township's investment in capital assets, net of depreciation, decreased \$560,000 to \$51,536,513. Capital Assets for our Sewer system including 13 pump stations and 77 miles of pipeline, comprise \$34,143,673 of the total. Infrastructure incorporating 45 miles of road and traffic signals at 39 intersections, is \$6,546,003 of the total. Buildings and Improvements comprise \$8,029,037. For the detailed information about Capital Assets please see Note C in the report. The schedule (Figure I-5) below details Capital Assets, net of depreciation.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

LONG-TERM DEBT

Long-term debt consists of debt incurred for the purchase and development of capital assets; and for the recording of compensated absences payable to employees, net pension liability and other post-employment benefits (OPEB) liability. The total long-term debt decreased \$1,139,000 mostly due to a net increase of \$1,292,000 in the OPEB liability primarily resulting from changes of assumptions changing the mortality tables used, and offset by a decrease of \$1,426,000 in the pension liability resulting from plan fiduciary net position at 12/31/2019, and a decrease in the bonds for \$1,010,000 in principal payments. For more information on long-term debt please see Note F in the report.

NEXT YEAR'S BUDGETS AND RATES

The general outlook for the economy of East Whiteland Township is uncertain due to the coronavirus (SARS-CoV-2) pandemic and associated societal and business closures ordered by the Commonwealth of Pennsylvania. These closures began in early to mid-March 2020 and will continue in some form into the foreseeable future. However, the shutdowns exempted approximately 70% of the U.S. economy and Statewide construction was permitted to resume on May 1, 2020. Locally planned development activity continues to move into production in 2020. Building permit activity and fees based on permits issued to date and in the approval process are relatively unaffected. In the short run, this will continue to add to our building permit fees, transfer taxes and sewer tapping fees and ultimately to our real estate tax, earned income tax and local services tax revenue. For 2020, there will be no rate increase for real estate tax which has been the same low rate of .445 mills for over 25 years nor for the earned income tax rate which increased from 0.5% to 0.75% in 2019. For 2020, the earned income tax budget increased 4% or \$350,000 to \$9.05 million, and the real estate tax budget decreased 0.7% or \$5,180 to \$755,820. However it is expected that actual earned income tax received will be between \$905,000 – \$1,810,000 less, representing 6.3% -12.6% of the General Fund, than the budgeted figure due to the pandemic.

Operating expenses are expected to continue to increase over the next few years as municipal services are heavily labor intensive, and wage and benefit costs continue to increase. However, due to cost savings measures taken in 2019 and others that may be necessary in 2020 due to the pandemic, these increases can be moderated. In 2015 we took steps to reduce the healthcare costs by joining the Delaware Valley Health Insurance Trust for two of our three employee groups. In 2019 the healthcare plan for one employee group and non-represented employees was replaced with a less costly plan. In 2020 the Township's pension costs will increase by 4.2%. 2020 post-retirement benefit costs will be roughly the same as in 2019, being \$503,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED DECEMBER 31, 2019

Seventy six (76%) percent of the Township's full time employees (45 of 59) are represented by unions including the East Whiteland Police Association, the International Association of Fire Fighters (IAFF), and the American Federation of State, County and Municipal Employees (AFSCME). None of the three agreements will expire in 2020. Wage increases under the three contracts in 2020 are 3.5%, 3.75%, and 3.75% in the order as listed above.

Increases in East Whiteland sewer infrastructure and department expenses and costs for the sewer treatment plants that service East Whiteland Township continue to impact sewer fund finances. During 2018 we completed commercial sewer rate and tapping fee studies. The rates for high volume commercial sewer services increased 10% for 2019 and additional revenue of \$55,000 was budgeted for 2019 and 2020. The rates for all other sewer services and tapping fees will remain the same for 2020.

2020 projects include Conestoga Road and Planebrook Road sewer system expansion design, construction of Bacton Hill Park phase 1, planning for a new building to house the Police Department on the Township campus, additional road resurfacing and traffic improvement projects. The Act 209 Transportation Study that was completed in 2018 resulted in a new traffic impact fee to be used for traffic capital improvements. Recreation impact fees from development and grants will be used to fund the Bacton Hill Park phase 1 construction project.

CONTACTING THE TOWNSHIP'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Township's finances, comply with finance-related laws and regulations and demonstrate the Township's commitment to accountability. If you have any questions about this report or need additional information, please contact the Finance Department at 209 Conestoga Road, Frazer, PA 19355.

RECONCILIATION OF TOTAL GOVERNMENTAL FUNDS BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES DECEMBER 31, 2019

TOTAL GOVERNMENTAL FUNDS BALANCES	\$	17,489,068
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds. These assets consist of:		
Cost of capital assets Accumulated depreciation		59,527,914 (42,135,074)
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:		
Interest payable		(3,167)
Bonds payable Net OPEB liability		(7,741,044)
Net pension liability		(12,961,571) (4,519,015)
Compensated absences		(33,245)
Deferred charges used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:		
Deferred amount on refunding, net of amortization		307,582
Deferred inflows and outflows of resources related to pension and OPEB activities are not financial resources and, therefore,		4004000
are not reported in the governmental funds.		1,801,036
Some of the Township's revenues will be collected after year-end but are not available soon enough to pay for the current period's		
expenditures and therefore are deferred in the funds.	_	5,760

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED DECEMBER 31, 2019

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$	3,611,243
Capital outlays are reported in Governmental Funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds (\$1,968,897) capital outlays (\$1,261,778) in the current period		(707,119)
Because some property taxes will not be collected for several months after the Township's fiscal year ends, they are not considered as "available" revenues in the Governmental Funds. Deferred tax revenues increased by this amount this year.		(10,070)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to Governmental Funds, while the repayment of the principal of long-term debt consumes the current financial resources of Governmental Funds Neither transaction, however, has any effect on net position. Also, Governmental Funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Repayment of bond principal		295,000
Amortization of bond discount and premium Amortization of deferred amount on refunding		1,801 (15,444)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the Governmental Funds.		(701,495)
In the statement of activities, compensated absences (vacations and sick leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts paid).		(612)
Interest on long-term debt in the statement of activities differs from the amount reported in the Governmental Funds because interest is recognized as an expenditure in the funds when it is due and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		1.426

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

East Whiteland Township ("the Township") was established in 1765 and is an organized township having the powers, duties, and privileges granted townships by the Commonwealth of Pennsylvania Second Class Township Code, Act of May 1, 1933 (P.L. 103, No. 69), reenacted and amended November 9, 1995 (P.L. 350, No. 60). The Township is governed by a three-member board of supervisors elected for a six-year term by the citizens of the Township. The Board is organized with a chairman and vice-chairman elected annually at the reorganization meeting held on the first Monday of the year.

The township complies with generally accepted accounting principles ("GAAP"). GAAP includes all relevant Governmental Accounting Standards Board ("GASB") pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

Financial accountability is defined in GASB Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 61. The Township is financially accountable for legally separate organizations if it appoints a voting majority of the organization's board and (1) it is able to impose its will on that organization; or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Township. The Township also may be financially accountable if an organization is fiscally dependent on the Township regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board.

Blended Component Units:

The Police Pension Plan is a single employer defined benefit pension plan that provides pensions for all regular, full-time sworn police officers. Although the plan is a separate legal entity it is reported as if it is part of the government as it is governed by a committee comprised of members appointed by the Township Board of Supervisors and the Township is responsible for funding the plan. The plan is reported as a fiduciary fund and issues separate financial statements.

The Non-Uniformed Employees' Pension Plan is a single employer defined benefit pension plan that provides pensions for all regular full-time, non-uniformed employees. Although the plan is a separate legal entity it is reported as if it is part of the government as it is governed by a committee comprised of members appointed by the Township Board of Supervisors and the Township is responsible for funding the plan. The plan is reported as a fiduciary fund and does issues separate financial statements.

The Firefighters Pension Plan is a single employer defined benefit pension plan that provides pensions for all regular full-time, firefighters. Although the plan is a separate legal entity it is reported as if it is part of the government as it is governed by a committee comprised of members appointed by the Township Board of Supervisors and the Township is responsible for funding the plan. The plan is reported as a fiduciary fund and does issues separate financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Postemployment Benefits Other Than Pensions Plan is a single-employer defined benefit healthcare plan that provides medical insurance and life insurance benefits to eligible retirees. Although the plan is a separate legal entity it is governed by a committee comprised of members appointed by the Township Board of Supervisors and the Township is responsible for funding the plan. The plan is reported as a fiduciary fund and does not issue separate financial statements.

Government-Wide and Fund Financial Statements

The accompanying financial statements of the Township are in accordance with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, as amended by GASB Statement No. 37, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments—Omnibus, GASB Statement No. 38, Certain Financial Statement Note Disclosures, and GASB Statement No. 41, Budgetary Comparison Schedules—Perspective Differences. The requirements of this new reporting model are described below.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the activities of the primary government, except for Fiduciary Funds and Agency Funds. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for Governmental Funds, Proprietary Funds and Fiduciary Funds, even though the latter are excluded from the government-wide financial statements. Major individual Governmental Funds are reported as separate columns (Other Governmental Funds) in the fund financial statements.

Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the fiscal period. Under this basis, certain revenues (those susceptible to accrual, readily measurable and available as to amount and anticipated as being readily collectible) are recorded on the accrual basis. Property taxes, earned income taxes, local services taxes and licenses associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenues are recognized only when received in cash. Expenditures, with the exception of interest requirements on long-term debt, are accounted for on the accrual basis of accounting.

The Township reports the following major governmental funds:

- The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Capital Improvement Fund accounts for the resources to be used for the acquisition, construction, or improvement of major capital assets for general government purposes.

The Township reports the following major Proprietary funds

• The Sewer Fund accounts for operations related to the collection of wastewater and the operation of sewage pumping stations. The sewage is transported to a sewer treatment plant not owned by the Township.

Additionally, the Township reports the following Fiduciary Fund Types:

- The *Pension Trust Funds* are used to account for the activities of the Police, Firefighter and Non-Uniformed Pension Plans, which accumulate resources for pension benefit payments to gualified employees.
- The *OPEB Trust Fund* is used to account for the assets held by the Township to pay for postemployment medical benefits.
- The Custodial Fund is used to account for monies held by the Township for developer escrow deposits.

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. The principal operating revenues of the Sewer Fund are charges to customers for sales and services. Operating expenses for the Township's enterprise funds include sewer disposal, salaries, recycling, supplies, and administrative costs, and depreciation. All revenues or expenses not meeting this definition are reported as nonoperating revenues and expenses.

Stewardship, Compliance and Accountability

Budgets and Budgetary Accounting - The Township follows the procedures outlined below, which comply with legal requirements in establishing the budgetary data reflected in the financial statements:

- Budgets are legally adopted on an annual basis for most Township funds, which is consistent with generally accepted accounting principles. The operating budget includes proposed expenditures and the means of financing them.
- Prior to November 15 of the preceding fiscal year, the Township prepares a budget for the next succeeding calendar year beginning January 1. The operating budget includes proposed expenditures and the means of financing them.
- A meeting of the Board of Supervisors is then called for the purpose of adopting the proposed budget.
- 4. Prior to December 31, the budget is legally enacted through passage of a resolution by the Board of Supervisors.
- 5. The budget must be filed with the Pennsylvania Department of Community and Economic Development by January 31.
- 6. Budgets for the funds are prepared on the modified accrual basis of accounting.

Once a budget is approved, it can be amended at the function and fund level only by approval of majority of the members of the Board of Supervisors. Amendments are presented to the Board at its regular meetings. Each amendment must have the Board's approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end as dictated by law.

The budget is controlled by the finance officer at the revenue and expenditures function/object level. Budgeted amounts are as amended by the Board of Supervisors. For 2019, individual amendments were not material in relation to the original appropriations. All budget appropriations lapse at year end.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The General Fund, Capital Improvements Fund, Transportation Improvement Fund, Street Light Fund, Park Development Fund, and State Fund all have legally adopted budgets for the year ended December 31, 2019.

Assets, Liabilities and Equity

Deposits and Investments - The Township's cash and cash equivalents including demand deposits and short-term investments with original maturities of three months or less from the date of acquisition are considered to be cash on hand.

Statutes authorize the Township to invest in: 1) obligations, participations and other instruments of any Federal agency, 2) repurchase agreements with respect to U.S. Treasury bills or obligations, 3) negotiable certificates of deposit, 4) bankers' acceptances, 5) commercial paper, 6) shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933, and 7) savings or demand deposits. The specific conditions under which the District may invest in these categories are detailed in Pennsylvania Act No. 53 of 1973, as amended by Pennsylvania Act No. 10 of 2016. Investments are stated at fair value except for certificates of deposit which are stated at amortized cost.

Under Act No. 72, enacted by the General Assembly of the Commonwealth of Pennsylvania, the funds deposited with the various banks are permitted to be secured on a pooled basis with all other public funds which the banking institution has on deposit. These may be bonds of the United States, any state of the United States, or bonds of any political subdivision of Pennsylvania or the general state authority or their authorities created by the General Assembly of the Commonwealth of Pennsylvania, or insured with the Federal Deposit Insurance Corporation. The market value of such bonds pledged must equal 102% of the funds deposited. The security pledged by the various depositories utilized during the year and at December 31, 2019, was in excess of the minimum requirements just described.

The Township has adopted GASB Statement No. 72, Fair Value Measurement and application. In accordance with this Statement, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values.

The law provides that the Township's Pension Trust Funds may invest in any form or type of investment, financial instrument, or financial transaction if determined by the Township to be prudent.

Receivables and Payables - Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Real Estate Taxes - Real estate taxes are recorded as revenues when the taxes are levied. All property tax receivables are shown net of an allowance for uncollectibles. At December 31, 2019, all tax receivables were deemed to be fully collectible. There is no tax receivable allowance due to the materiality of the outstanding receivables.

Real estate taxes are levied on January 1 on property values assessed as of the same date. Taxes are billed March 1 and are due on June 30 of each year. A 2% discount is provided for taxes paid prior to May 1. A 10% penalty is applied to taxes paid after June 30. Any unpaid bills at December 31 are subject to lien, and penalties and interest are assessed.

Other taxes levied in 2019:

Real estate transfer tax	0.5% of sales price
Earned income tax	0.5% of gross income
Local service tax	\$52 per person

Provision for Estimated Uncollectible Receivables - No provision is considered necessary for other receivables.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Township has three items that qualify for reporting in this category. The deferred charge on refunding results from the difference in carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources related to pensions is reported in the government-wide statement of net position and the proprietary fund statement of net position and is the result of differences between pension plan expected and actual experience and changes in pension plan assumptions. Deferred outflows of resources related to OPEB is reported in the government-wide statement of net position and the proprietary fund statement of net position and are the result of differences between expected and actual experience, and changes of assumptions.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Township has three items, which qualify for reporting in this category. Unavailable revenue, which arises only under a modified accrual basis of accounting, is reported only in the Governmental Funds balance sheet. The Governmental Funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pensions is reported in the government-wide statement of net position and the proprietary fund statement of net position and is the result of differences between pension plan expected and actual experience and the difference between projected and actual investment earnings. Deferred inflows of resources related to OPEB is reported in the government-wide statement of net position and the proprietary fund statement of net position and is the result of differences between changes of assumptions, and the difference between projected and actual investment earnings.

Capital Assets - Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the applicable governmental or business — type activities columns in the entity-wide financial statements as well as in the proprietary fund financial statements. The township capitalizes assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The Township reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the entity-wide financial statements regardless of their amount. Such assets are recorded at historical cost if purchased or constructed. In accordance with GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," the Township capitalizes contributions to the Valley Forge Sewer Authority for the purchase of additional sewer treatment capacity.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed, inclusive of ancillary costs.

Depreciation has been provided over the estimated useful lives of property, plant and equipment using the straight-line method as follows:

Vaara

	<u>rears</u>
Site improvements	20
Buildings and improvements	20-40
Infrastructure	15-50
Machinery and equipment	3-12
Vehicles	3-12

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Term Obligations - In the government-wide financial statements and the Proprietary Fund Types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund Type statement of net position.

In the fund financial statements, Governmental Fund Types reports discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received and discounts paid on debt issuance are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures, except for refunding's paid from proceeds which are reported as other financing uses.

Net Position Flow Assumption

Sometimes the Township will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Fund financial statements, a flow assumption should be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

In the fund financial statements, Governmental Fund Types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as expenditures.

Net Position - The Township has implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the Township's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable Fund Balance Amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- Restricted Fund Balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government) through constitutional provisions or by enabling legislation.
- Committed Fund Balance Amounts constrained to specific purposes by the Township itself, using its highest level of decision-making authority (the Board of Supervisors). To be reported as committed, amounts cannot be used for any other purpose unless the Township takes the same highest level action to remove or change the constraint,

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Assigned Fund Balance Amounts the Township intends to use for a specific purpose. Intent can be expressed by the Board of Supervisors or by an official or body to which the Board of Supervisors delegates the authority. As of December 31, 2019, the Board has not delegated the authority to assign fund balance.
- Unassigned Fund Balance Amounts available for any purpose. Positive amounts are reported only in the General Fund.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a motion, which is the most binding action management can take. Assigned fund balance is intended to be used by the Township for specific purposes but does not meet the criteria to be classified as restricted or committed.

The Township will typically use restricted fund balances first, followed by committed resources and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Cash and Cash Equivalents - For purposes of reporting cash flows for the Proprietary Funds, all highly liquid investments with original maturities of three months or less are considered short-term investments.

Compensated Absences - Full-time employees are granted vacation benefits in varying amounts to specified maximums. Certain employees may carry over 40 hours of unused vacation time into the following year or receive compensation for those hours. Certain employees may accumulate up to 480 hours of unused sick time and, depending on years of services, may receive payment for some or all of that time at retirement or resignation. The liability for those compensated absences is recorded as long-term debt in the entity-wide and proprietary fund financial statements. In the fund financial statements, governmental funds report a liability for compensated absences only if they have matured. Historically the General Fund has been responsible for liquidation of compensated absences associated with business-type activities are liquidated from the fund in which the liability was generated.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are accounted for under the consumption method.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results could differ from those estimates.

Concentrations of Credit Risk - The Township's revenues and receivables for taxes and utility service are mostly derived from residents and businesses located in the Township and are, therefore, subject to the economic conditions of the area.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE B - DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the Township's deposits may not be returned to it. As of December 31, 2019, \$986,137 of the total bank balance of \$27,164,958 was insured by the Federal Depository Insurance Corporation. The remaining bank balance of \$26,178,821 was exposed to credit risk because it was uninsured and collateralized in accordance with Act 72 of the Commonwealth of Pennsylvania Legislature, which permits the institution to pool collateral for all governmental deposits and has the collateral held by a custodian in the institution's name.

Investments

As of December 31, 2019, the Township had the following investments:

Investment Type	_	Amortized Cost		Fair Value	_	Total	 Investment Maturities Less Than One Year
GOVERNMENTAL ACTIVITIES							
Certificates of deposit	\$_	252,052	\$.		. \$	252,052	\$ 252,052
FIDUCIARY FUNDS							
Domestic equity mutual funds	\$	-	\$	12,375,713	\$	12,375,713	\$ 12,375,713
International equity mutual funds		-		2,878,203		2,878,203	2,878,203
Fixed income mutual funds		-		4,997,863		4,997,863	4,997,863
Real estate mutual funds	_		_	881,576		881,576	 881,576
TOTAL FIDUCIARY							
FUNDS	\$_	-	\$_	21,133,355	\$	21,133,355	\$ 21,133,355

Fair Value Measurement - The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets: Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Township has the following recurring fair value measurements as of December 31, 2019:

Investments in domestic equity mutual funds of \$12,375,713, international equity mutual funds of \$2,878,203, fixed income mutual funds of \$4,997,863, and real estate mutual funds of \$881,576 are valued using quoted market prices (Level 1 inputs).

Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair market value of an investment. The Township's investment policy includes a balancing provision to address this type of risk.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE B - DEPOSITS AND INVESTMENTS (Continued)

Credit Risk - This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits the investment of government funds as described in Note A. The Township's investment policy does not further limit its investment choices.

Concentration of Credit Risk - This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. There are no investments in any one issuer that is in excess of 5 percent of the government's total investments.

NOTE C - CAPITAL ASSETS

Changes in capital asset activity for the year ended December 31, 2019, were as follows:

		Balance January 1, 2019		Increases		Decreases		Balance December 31, 2019

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE D - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivables and payables at December 31, 2019, are as follows:

	<u>C</u>	<u>_C</u>	Due to ther Funds	
GOVERNMENTAL FUNDS General Fund Capital Improvement Fund	\$	20,556 600,000	\$	600,000 2,063
BUSINESS-TYPE ACTIVITIES Sewer Fund	_		_	18,493
	\$	620,556	\$	620,556

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

Interfund transfers at December 31, 2019, are as follows:

	Transfer Out	Transfer In
GOVERNMENTAL FUNDS General Fund Capital Improvement Fund Park Development Fund	\$ 975,600 15,101 -	\$ 166,165 975,600 15,101
BUSINESS-TYPE ACTIVITIES Sewer Fund	166,165	
	\$1,156,866	\$1,156,866

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to account for saving for future capital projects.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE E - RECEIVABLES

Receivables as of December 31, 2019, are as follows:

	General Fund	Capital Improvement Fund	_	Other Governmental Funds	-	Sewer Fund	_	Totals
RECEIVABLES Accounts Taxes	\$ 78,055 2,402,411	\$ 445,000 -	\$	369	\$	1,151,871	\$	1,675,295 2,402,411

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE F - LONG-TERM DEBT (Continued)

Payments on the bonds and loans payable pertaining to the Township's governmental activities are made by the General Fund. Payments of compensated absences, net pension obligations and net other postemployment benefit obligations pertaining to the Township's governmental activities are made by the General Fund.

Governmental Activities Debt

General Obligation Series of 2014 - General Obligation Bonds, Series of 2014 were issued in the original amount of \$8,040,000. Interest rates range from 1.0% to 4.0% with interest payable semi-annually and principal payable annually from June 2015 through December 2039. These bonds were issued to finance the new Public Works building and additional park developments.

General Obligation Series of 2016 - General Obligation Bonds, Series of 2016 were issued in the original amount of \$6,160,000. Interest rates range from 2.0% to 3.0% with interest payable semi-annually and principal payable annually from June 2017 through December 2039. These bonds were issued to advance refund a portion of the General Obligation Bonds, Series of 2014 and to pay the cost of the bond issuance. The refunding resulted in an economic gain of \$297,663 and a decrease in future cash flows of \$307,026.

Business-Type Activities Debt

General Obligation Bonds, Series of 2012A - General Obligation Bonds, Series of 2012A, were issued in the original amount of \$4,685,000. Interest rates range from 0.9% to 3.0% with interest payable semi-annually and principal payable annually from September 2013 through September 2020. These bonds were issued to redeem and prepay 1999 Bonds to reduce costs.

General Obligation Bonds, Series of 2012B - General Obligation Bonds, Series of 2012B, were issued in the original amount of \$4,130,000. Interest rates range from 1.0% to 3.0% with interest payable semi-annually and principal payable annually from September 2020 through September 2025. These bonds were issued to redeem and prepay 2005 bonds to reduce costs.

General Obligation Bonds, Series of 2013A - General Obligation Bonds, Series of 2013A, were issued in the original amount of \$12,145,000. Interest rates range from 2.0% to 3.6% with interest payable semi-annually from September 2013 through September 2038. These bonds were issued to finance sewer expansions and upgrades.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE F - LONG-TERM DEBT (Continued)

Total Scheduled Annual Debt Service

The Township's total scheduled annual debt service on all long-term debt is as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE G - DEFINED BENEFIT PENSION PLAN (POLICE PENSION PLAN)

Police Pension Plan

Summary of Significant Accounting Policies - Police Pension Plan investments are carried at fair value as reported by the investment managers. Short-term investments are reported at cost, which approximates fair value. Financial information of the Township's Police Pension Plan is presented on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due as required by the Act. For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Plan Description

Plan Administration - The Township administers the Police Pension Plan--a single-employer defined benefit pension plan that provides pensions for all regular, full-time police officers. The plan is part of the Township's financial reporting entity and is included in the Township's financial statements as a Pension Trust Fund. The plan does not issue separate, stand-alone financial statements.

The plan is governed by the Township Board of Supervisors which is responsible for the management of plan assets. The Township Board of Supervisors has appointed the Pension Board as the official body to which all related investment matters of the plan are delegated. The Pension Board consists of five members, which may consist of elected officials, management, and/or members of the plan. The Township Board of Supervisors has delegated the authority to manage certain plan assets to TCG Investment Advisory, Inc., with Broadridge Matrix Trust Company as custodian.

Plan Membership - At December 31, 2019, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	13
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	22
	35

Benefits Provided - The Police Pension Plan provides retirement benefits as well as death and disability benefits under Pennsylvania Act 600.

Eligibility Requirements:

Normal Retirement - Age 50 and 25 years of service.

Early Retirement - 20 or more years of service.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE G - DEFINED BENEFIT PENSION PLAN (POLICE PENSION PLAN) (Continued)

Vesting - None for the first 12 years of service; thereafter, 100%. If a member dies before the pension becomes vested, the surviving spouse or minor children shall receive repayment of the member's contributions, if any, plus interest.

Retirement Benefit:

The monthly pension shall be 50% of the average monthly salary over the participant's last 36 months of employment, plus an incremental pension of \$25 per month for each completed year of service in excess of twenty-five years up to a maximum of \$100 per month. The early retirement pension shall be the actuarial equivalent of a partial superannuation retirement benefit.

Survivor Benefit:

A pension benefit shall be automatically provided to a retired officer's spouse or to the spouse of an officer eligible to retire, equal to no less than 50% of the eligible pension. If no spouse, or if spouse subsequently dies, the benefit shall apply to children under age 18, or if attending college, under or attaining age 23.

Disability Benefit:

Service-Related - The monthly disability pension benefit shall be calculated at no less than 50% of the member's salary at the time the disability was incurred. Said pension shall be reduced by any benefits received for the same injuries under the Social Security Act.

Nonservice-Related - None.

Post-Retirement Adjustments:

A cost of living adjustment may be provided to retired officers. Annual adjustment not to exceed the increase in the Consumer Price Index from year to year with a 3% maximum annual increase. Total adjustments not to exceed 30% of the retiree's original pension.

The benefit provisions of the Township's Police Pension Plan are established by Township ordinances.

Contributions - Pennsylvania Act 205 of 1984 (as amended) requires that annual contributions be based upon the minimum municipal obligation (MMO), which is based on the plan's actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. The Commonwealth provides an allocation of funds, which must be used for pension funding. A financial requirement established by the MMO, which exceeds state and member contributions, must be funded by the employer.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE G - DEFINED BENEFIT PENSION PLAN (POLICE PENSION PLAN) (Continued)

As a condition of participation, participants are required to make contributions to the plan. Covered employees are required by statute to contribute 5% of their compensation to the plan. The Township is required by statute, principally Pennsylvania Act 205, to contribute the remaining amounts necessary to finance the plan.

In 2019, the MMO obligation for the Police Pension Plan was \$504,774. For the year 2019, contributions of \$504,774 were made by the Township.

Administrative costs, which may include, but are not limited to, investment management fees and actuarial services, are charged to the appropriate plan and funded through the MMO and/or plan earnings. On-behalf payments of fringe benefits and salaries for the Township's employees were recognized as revenues and expenditures during the year.

Investments

Investment Policy - The Pension Board, with the assistance of TCG Investment Advisory, Inc., shall select the appropriate asset weighting percentage to be allocated to each specific asset class. Each asset class shall consist of a combination of investment options that have been made available to obtain the absolute investment objective of the fund. Investments shall be diversified with the intent to minimize the risk of large investment losses. Consequently, the total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holdings in investment funds specializing in individual issues, issuers, countries, governments or industries. The following was the Board's adopted asset allocation policy as of December 31, 2019:

Asset Class	Target <u>All</u> ocation
Domestic equity	50%
International equity	8%
Fixed income	35%
Real estate	5%
Cash	2 <u>%</u> _
	100%

Concentrations - There are no investments in any one issuer that is in excess of 5 percent of the total investments.

Rate of Return - For the year ended December 31, 2019, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 22.26%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE G - DEFINED BENEFIT PENSION PLAN (POLICE PENSION PLAN) (Continued)

Net Pension Liability of the Township - The components of the net pension liability of the Township at December 31, 2019, were as follows:

Total pension liability	\$ 13,765,847
Plan fiduciary net position	_(10,943,594)

NET PENSION LIABILITY \$ 2,822,253

Plan fiduciary net position as a percentage of the total pension liability

79.50%

Actuarial Assumptions - The total pension fiability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation3%Salary increases5% annual increaseInvestment rate of return7.5%

Mortality rates were based on the PubS-2010 mortality table, including rates for disabled retirees and contingent survivors. Incorporated into the table are rates projected generationally using Scale MP-2018 to reflect mortality improvement.

Due to the size of the plan, there have been no experience studies used to determine plan assumptions.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2019 (see the plan's investment policy) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Domestic equity International equity Fixed income Real estate Cash	5.50% - 7.50% 4.50% - 6.50% 1.00% - 3.00% 4.50% - 6.50% 0.00% - 1.00%

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE G - DEFINED BENEFIT PENSION PLAN (POLICE PENSION PLAN) (Continued)

Discount Rate - The discount rate is based on the long-term expected rate of return on plan investments that are expected to be used to finance the payments of benefits. The plan's fiduciary net position is projected to be sufficient to make projected benefit payments and the plan assets are expected to be invested using a strategy to achieve that return. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as amortization of the unfunded liability to ultimately achieve a 100% funded status.

2021	71,234
2022	229,985
2023	(153,030)
2024	105,281
Thereafter	210,557

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE H - DEFINED BENEFIT PENSION PLAN (NON-UNIFORMED PENSION PLAN)

Non-Uniformed Pension Plan

Summary of Significant Accounting Policies - Non-Uniformed Pension Plan investments are carried at fair value as reported by the investment managers. Short-term investments are reported at cost, which approximates fair value. Financial information of the Township's Non-Uniformed Pension Plan is presented on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due as required by the Act. For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Plan Description

Plan Administration - The Township administers the Non-Uniformed Pension Plan--a single-employer defined benefit pension plan that provides pensions for all regular, full-time non-uniformed employees. The plan is part of the Township's financial reporting entity and is included in the Township's financial statements as a Pension Trust Fund. The plan does not issue separate, stand-alone financial statements.

The plan is governed by the Township Board of Supervisors which is responsible for the management of plan assets. The Township Board of Supervisors has appointed a pension committee as the official body to which all related investment matters of the plan are delegated. The pension committee consists of five members, which may consist of elected officials, management, and/or members of the plan. The Township Board of Supervisors has delegated the authority to manage certain plan assets to TCG Investment Advisory, Inc., with Broadridge Matrix Trust Company as custodian.

Plan Membership - At December 31, 2019, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	21
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	16_
	40

Benefits Provided - The Non-Uniformed Pension Plan provides retirement and other benefits.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE H - DEFINED BENEFIT PENSION PLAN (NON-UNIFORMED PENSION PLAN) (Continued)

Eligibility Requirements:

Normal Retirement - For participants represented by a collective bargaining unit and hired prior to January 1, 2006, the normal retirement date is age 64 and 10 years of service. For participants not represented by a collective bargaining agreement and hired prior to January 1, 2006, the normal retirement date is age 63 and 10 years of service. For participants hired on or after January 1, 2006, the normal retirement date is age 64 and 10 years of service.

Early Retirement - Age 55 and 10 years of service.

Vesting - For participants hired on or after January 1, 2006 - none for the first 10 years of service; thereafter, 100%. For participants hired prior to January 1, 2006 - 50% after 5 full years of service; thereafter, 10% per year until 100% vested after 10 years. If a member dies before the pension becomes vested, the surviving spouse or minor children shall receive repayment of the member's contributions, if any, plus interest.

Retirement Benefit:

For participants hired on or after January 1, 2006, the monthly pension shall be 2.00% for each year of service times the average monthly compensation over the participants last 60 months of employment. For participants hired prior to January 1, 2006, the monthly pension shall be 50% of the final average monthly compensation over the participant's last 36 months of employment. The early retirement pension shall be a partial superannuation retirement benefit determined by a table in the governing resolution.

Disability Benefit:

Service-Related - The accrued retirement benefit determined at the date of disability. The disability benefit shall commence at the normal retirement date.

The benefit provisions of the Township's Non-Uniformed Pension Plan are established by Township ordinances.

Contributions - Pennsylvania Act 205 of 1984 (as amended) requires that annual contributions be based upon the minimum municipal obligation (MMO), which is based on the plan's actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. The Commonwealth provides an allocation of funds, which must be used for pension funding. A financial requirement established by the MMO, which exceeds state and member contributions, must be funded by the employer.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE H - DEFINED BENEFIT PENSION PLAN (NON-UNIFORMED PENSION PLAN) (Continued)

Covered employees are required to contribute 5% of their compensation to the plan. The Township is required by statute, principally Pennsylvania Act 205, to contribute the remaining amounts necessary to finance the plan. Contribution provisions are established by Pennsylvania law and may be amended only as allowed by Pennsylvania law.

In 2019, the MMO obligation for the Non-Uniformed Pension Plan was \$394,490. For the year 2019, contributions of \$394,490 were made by the Township.

Administrative costs, which may include, but are not limited to, investment management fees and actuarial services, are charged to the appropriate plan and funded through the MMO and/or plan earnings. On-behalf payments of fringe benefits and salaries for the Township's employees were recognized as revenues and expenditures during the year.

Investments

Investment Policy - The Pension Board, with the assistance of TCG Investment Advisory, Inc., shall select the appropriate asset weighting percentage to be allocated to each specific asset class. Each asset class shall consist of a combination of investment options that have been made available to obtain the absolute investment objective of the fund. Investments shall be diversified with the intent to minimize the risk of large investment losses. Consequently, the total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holdings in investment funds specializing in individual issues, issuers, countries, governments or industries.

The following was the Committee's adopted asset allocation policy as of December 31, 2019:

Asset Class	l arget <u>Allocation</u>
Domestic equity	61%
International equity	9%
Fixed income	23%
Real estate	4%
Cash	3%
	100%

Concentrations - There are no investments in any one issuer that is in excess of 5 percent of the total investments.

Rate of Return - For the year ended December 31, 2019, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 22.27%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE H - DEFINED BENEFIT PENSION PLAN (NON-UNIFORMED PENSION PLAN) (Continued)

Net Pension Liability of the Township - The components of the net pension liability of the Township at December 31, 2019, were as follows:

Total pension liability Plan fiduciary net position	\$	8,211,938 (7,082,251)
NET PENSION LIABILITY	\$ <u></u>	1,129,687
Plan fiduciary net position as a percentage of the total pension liability		86.24%

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3%
Salary increases	4.5% annual increase
Investment rate of return	7.5%

Mortality rates were based on the PubS-2010 mortality table, including rates for disabled retirees and contingent survivors. Incorporated into the table are rates projected generationally using Scale MP-2018 to reflect mortality improvement.

Due to the size of the plan, there have been no experience studies used to determine plan assumptions.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2019 (see the plan's investment policy) are summarized in the following table:

	Long-Term
	Expected
	Real Rate
Asset Class	of Return
Domestic equity	5.50% - 7.50%
International equity	4.50% - 6.50%
Fixed income	1.00% - 3.00%
Real estate	4.50% - 6.50%
Cash	0.00% - 1.00%

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE H - DEFINED BENEFIT PENSION PLAN (NON-UNIFORMED PENSION PLAN) (Continued)

Discount Rate - The discount rate is based on the long-term expected rate of return on plan investments that expected to be used to finance the payments of benefits. The plan's fiduciary net position is projected to be sufficient to make projected benefit payments and the plan assets are expected to be invested using a strategy to achieve that return. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as amortization of the unfunded liability to ultimately achieve a 100% funded status.

2024	20,208		4,139	

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN)

Firefighter Pension Plan

Summary of Significant Accounting Policies - The Pension Plan investments are carried at fair value as reported by the investment managers. Short-term investments are reported at cost, which approximates fair value. Financial information of the Township's Firefighter Pension Plan is presented on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due as required by the Act. For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Plan Description

Plan Administration - The Township administers the Firefighter Pension Plan--a single-employer defined benefit pension plan that provides pensions for all regular, full-time firefighter employees. The plan is part of the Township's financial reporting entity and is included in the Township's financial statements as a Pension Trust Fund. The plan does not issue separate, stand-alone financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN) (Continued)

The plan is governed by the Township Board of Supervisors which is responsible for the management of plan assets. The Township Board of Supervisors has appointed a pension committee as the official body to which all related investment matters of the plan are delegated. The pension committee consists of five members, which may consist of elected officials, management, and/or members of the plan. The Township Board of Supervisors has delegated the authority to manage certain plan assets to TCG Investment Advisory, Inc., with Broadridge Matrix Trust Company as custodian.

Plan Membership - At December 31, 2019, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	1
Inactive plan members entitled to but not yet receiving benefits	1
Active plan members	9_
	11_

Benefits Provided - The Firefighter Pension Plan provides retirement and other benefits.

Eligibility Requirements:

Normal Retirement - Age 50 and 25 years of service.

Early Retirement - 20 or more years of service, actuarially reduced to reflect early commencement of benefits.

Vesting - None for the first 10 years of service; thereafter, 100%. If a member dies before the pension becomes vested, the surviving spouse or minor children shall receive repayment of the member's contributions, if any, plus interest.

Retirement Benefit:

Service-Related - The accrued retirement benefit determined at the date of disability. The disability benefit shall commence when the participant has been declared totally and permanently disabled.

Nonservice-Related - None

The benefit provisions of the Township's Firefighter Pension Plan are established by Township ordinances.

Contributions - Pennsylvania Act 205 of 1984 (as amended) requires that annual contributions be based upon the minimum municipal obligation (MMO), which is based on the plan's actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. The Commonwealth provides an allocation of funds, which must be used for pension funding. A financial requirement established by the MMO, which exceeds state and member contributions, must be funded by the employer.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN) (Continued)

Covered employees are required to contribute 5% of their compensation to the plan. The Township is required by statute, principally Pennsylvania Act 205, to contribute the remaining amounts necessary to finance the plan. Contribution provisions are established by Pennsylvania law and may be amended only as allowed by Pennsylvania law.

In 2019, the MMO obligation for the Firefighter Pension Plan was \$158,964. For the year 2019, contributions of \$158,964 were made by the Township.

Administrative costs, which may include, but are not limited to, investment management fees and actuarial services, are charged to the appropriate plan and funded through the MMO and/or plan earnings. On-behalf payments of fringe benefits and salaries for the Township's employees were recognized as revenues and expenditures during the year.

Investments

Investment Policy - The Pension Board, with the assistance of TCG Investment Advisory, Inc., shall select the appropriate asset weighting percentage to be allocated to each specific asset class. Each asset class shall consist of a combination of investment options that have been made available to obtain the absolute investment objective of the fund. Investments shall be diversified with the intent to minimize the risk of large investment losses. Consequently, the total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holdings in investment funds specializing in individual issues, issuers, countries, governments or industries.

The following was the Committee's adopted asset allocation policy as of December 31, 2019:

Asset Class	Target <u>Allocation</u>
Domestic equity	59%
International equity	11%
Fixed income	23%
Real estate	4%
Cash	3%
	100%_

Concentrations - There are no investments in any one issuer that is in excess of 5 percent of the total investments.

Rate of Return - For the year ended December 31, 2019, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 21.94%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN) (Continued)

Net Pension Liability of the Township - The components of the net pension liability of the Township at December 31, 2019, were as follows:

Total pension liability Plan fiduciary net position	\$ 3,272,205 (2,513,081)
NET PENSION LIABILITY	\$ 759,124
Plan fiduciary net position as a percentage of the total pension liability	76.80%

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3%
Salary increases	4.5% annual increase
Investment rate of return	7.5%

Mortality rates were based on the PubS-2010 mortality table, including rates for disabled retirees and contingent survivors. Incorporated into the table are rates projected generationally using Scale MP-2018 to reflect mortality improvement.

Due to the size of the plan, there have been no experience studies used to determine plan assumptions.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2019 (see the plan's investment policy) are summarized in the following table:

	Long-Term
	Expected
	Real Rate
Asset Class	of Return
Domestic equity	5.50% - 7.50%
International equity	4.50% - 6.50%
Fixed income	1.00% - 3.00%
Real estate	4.50% - 6.50%
Cash	0.00% - 1.00%

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN) (Continued)

Discount Rate - The discount rate is based on the long-term expected rate of return on plan investments that expected to be used to finance the payments of benefits. The plan's fiduciary net position is projected to be sufficient to make projected benefit payments and the plan assets are expected to be invested using a strategy to achieve that return. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as amortization of the unfunded liability to ultimately achieve a 100% funded status.

NOTE I - DEFINED BENEFIT PENSION PLAN (FIREFIGHTER PENSION PLAN) (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	
2020	\$ 28,510
2021	28,935
2022	55,267
2023	(6,039)
2024	50,410
Thereafter	159,453

NOTE J - NON-UNIFORM EMPLOYEE DEFINED CONTRIBUTION PENSION PLAN

Plan Description

The Township has established the East Whiteland Township Non-Uniform Employee Defined Contribution Pension Plan (the "Plan"), which provides pension benefits for its full-time, non-union, non-uniform employees as defined in the plan, and who were hired on or after January 1, 2017. There is a six month period of service required in order to participate. The Plan is a single-employer defined contribution money purchase pension plan under Section 401 (a) of the Internal Revenue Code. In a defined contribution plan, the benefits to be received by an employee depend solely on the amount contributed to the participant's account and related returns on investments of those contributions. ICMA Retirement Corporation serves as the third-party administrator for the Plan, maintaining records of individual account balances and administering receipt and payment of funds. All funds contributed by the employees and employer are invested with the funds offered through ICMA-RC. The Plan does not issue separate, stand-alone financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE J - NON-UNIFORM EMPLOYEE DEFINED CONTRIBUTION PENSION PLAN (Continued)

Funding Policy

Each eligible employee covered under the Plan must make an irrevocable election to contribute 2%, 3% or 4% of gross wages. The Township contributes 4%, 6% or 8% of each participating employee's gross wages to the Plan, respectively, depending on the employee's contribution percentage. For example, if the employee elects a 2% contribution, the Township will contribute 4%; if the employee elects a 3% contribution, the Township will contribute 6%. The Township's contributions for employees and earnings allocated to their accounts vest based on period of service completed, as follows:

Period of Service	
Completed	% Vested
Zero	0%
One	20%
Two	40%
Three	60%
Four	80%
Five	100%

Retirement benefits may be obtained at age 65. The Township made contributions of \$39,774, of which \$0 was funded by state-shared revenues and \$39,774 was funded by the Township. Employee contributions to the Plan were \$19,887.

At December 31, 2019, there were no investments in any one organization that represented 5% or more of total plan assets available for benefits other than mutual funds, which do not require disclosure of concentration per GASB Statement No. 40.

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Summary of Significant Accounting Policies - The OPEB Plan investments are carried at fair value as reported by the investment managers. Short-term investments are reported at cost, which approximates fair value. Financial information of the Township's OPEB Plan is presented on the accrual basis of accounting. Employer contributions to each plan are recognized when due.

Plan Description

Plan Administration - The Township's post-employment healthcare plan is a single-employer defined benefit healthcare plan. The plan provides medical insurance and life insurance benefits to eligible retirees. Spouses and other dependents are not covered under the plan. The Board of Supervisors assigns the authority to establish and amend benefit provisions. The plan does not issue separate, stand-alone financial statements. The plan is part of the Township's financial reporting entity and is included in the Township's financial statements as a Trust Fund. The plan does not issue separate, stand-alone financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

The plan is governed by the Township Board of Supervisors which is responsible for the management of plan assets. The Township Board of Supervisors has appointed a pension committee as the official body to which all related investment matters of the plan are delegated. The pension committee consists of five members, which may consist of elected officials, management, and/or members of the plan. The Township Board of Supervisors has delegated the authority to manage certain plan assets to TCG Investment Advisory, Inc., with Broadridge Matrix Trust Company as custodian.

Plan Membership - At December 31, 2019, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	21
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	54
	78

Benefits Provided

Eliaibility Requirements:

Police Officers - Medical and life insurance benefits are payable for members who retire after attaining age 50 with 20 years of service. However, receipt of benefits are deferred to the date on which the officer qualifies for normal retirement had the officer remained in service (25 years of service).

Firefighters - Firefighters hired prior to December 31, 2011 or Part-time Firefighters hired prior to December 31, 2011 and subsequently promoted to full-time status, medical benefits are payable for members who retire after attaining age 50 with 20 years of service.

Non-Uniformed Employees - Medical benefits are payable for members who retire after attaining age 55 with 20 years of service.

Medical Benefits Payable upon Retirement:

Police Officers - Eligible retirees may participate in the employer's group medical plan, while under age 65 which includes basic medical, prescription drug, dental and vision coverage. At ages 65 and older, member remains in the same group medical. However, Medicare will pay primary. In addition, officers retiring after January 1, 1999 are required to enroll in Medicare Part B coverage and the Township reimburses the retiree for coverage. Officers retiring after December 31, 2013 are required to enroll in Medicare Part D coverage and the Township shall reimburse the retiree for coverage. In addition to the aforementioned benefits, officers hired prior to September 24, 2019 who retire after September 24, 2019 will receive a \$700 annual HRA contribution. These officers receive the same health benefits as active officers and are subject to any changes to the active plan made by agreement or an arbitration award. For officers hired after September 24, 2019, post-retirement medical benefits and the \$700 annual HRA contribution cease when the officer becomes eligible for Medicare.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Firefighters - Eligible retirees may participate in the employer's group medical plan, while under age 65 which includes basic medical, prescription drug, dental and vision coverage. At age 65, the member is no longer eligible to receive coverage.

Non-Uniformed Employees - Eligible retirees may participate in the employer's group medical plan, while under age 65 which includes basic medical, prescription drug, dental and vision coverage. At ages 65 and older, member remains in the same group medical. However, Medicare will pay primary. In addition, all retirees shall be required to enroll in Medicare Part B and Part D coverage and the Township reimburses the retiree for Medicare Part B and Part D coverage.

Union - Eligible employees that retire by December 31, 2022 may participate in the employer's group medical plan while under age 65, which includes basic medical, prescription drug, dental and vision coverage. At ages 65 and older, member remains in the same group medical. However, Medicare will pay primary. In addition, all retirees shall be required to enroll in Medicare Part B and Medical Part D coverage and the Township reimburses the retiree for coverage. However, for eligible employees who have 10 years of service as of December 31, 2022, if the healthcare plan designs change for active employees, retiree coverage will change as well. In addition, any employee hired on or after January 1, 2019 or an employee who does not have 10 years of service as of December 31, 2022 and who has at least twenty (20) years of service with the Township shall be provided post-retirement medical benefits including prescription for the retiree only until the retiree reaches age 65, becomes eligible for Medicare, or the retiree dies, whichever occurs first. If the healthcare plan designs change for active employees, retiree coverage will change as well. These retirees shall be required to enroll in Medicare Part B and Medical Part D coverage and will not be reimbursed for the Part B and Part D monthly premiums.

Disability Benefits:

Disabled Officers are eligible to continue receiving coverage for life if their disability is service related.

Life Insurance Benefits Payable upon Retirement:

Eligible retired police officers who retire while in the employ of the Township after 20 years of service are provided a life insurance benefit equal to \$20,000 until age 65. At ages 65 and older, the Township provides a life insurance benefit of \$10,000.

Dependents:

Spouses and other dependents are not covered under the Plan.

The benefit provisions of the Township's OPEB Plan are established by Township ordinances.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Funding Policy

Member contributions are not required under the plan. The contribution requirements of plan members are established and may be amended by the Board of Supervisors. The Township is accounting for these expenditures on a "pay-as-you-go" basis. The costs of administering the plans are paid by the Township.

Investments

Investment Policy - The Pension Board, with the assistance of TCG Investment Advisory, Inc., shall select the appropriate asset weighting percentage to be allocated to each specific asset class. Each asset class shall consist of a combination of investment options that have been made available to obtain the absolute investment objective of the fund. Investments shall be diversified with the intent to minimize the risk of large investment losses. Consequently, the total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holdings in investment funds specializing in individual issues, issuers, countries, governments or industries. The following was the Committee's adopted asset allocation policy as of December 31, 2019:

Asset Class	Target <u>Allocation</u>
Domestic equity	34%
International equity	10%
Fixed income	50%
Real estate	3%
Cash	3%
	100%

Concentrations - There are no investments in any one issuer that is in excess of 5 percent of the total investments.

Rate of Return - For the year ended December 31, 2019, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 23.39%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

total pension liability

included in the measurement:

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Net OPEB Liability of the Township - The components of the net OPEB liability of the Township at December 31, 2019, were as follows:

Total OPEB liability Plan fiduciary net position	\$ 15,479,099 (1,595,705)
NET OPEB LIABILITY	\$ <u>13,883,394</u>
Plan fiduciary net position as a percentage of the	

Actuarial Assumptions - The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions, applied to all periods

10,31%

Inflation 3%
Salary increases 4.5-5.0% annual increase
Investment rate of return 3.98%

The healthcare cost trend rate is 5.5% in 2019 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

Mortality rates were based on the PubS-2010 mortality table for Police and Fire and the PubG-2010 mortality table for Non-Uniformed employees.

Due to the size of the plan, there have been no experience studies used to determine plan assumptions.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE K - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the plan's target asset allocation as of December 31, 2019 (see the plan's investment policy) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	5.50% - 7.50%
International equity	4,50% - 6.50%
Fixed income	1.00% - 3.00%
Real estate	4.50% - 6.50%
Cash	0.00% - 1.00%

Discount Rate - The discount rate used to measure the total OPEB liability was 3.98%. The plan's fiduciary net position is not projected to be sufficient to make projected benefit payments. As a result, the discount rate is based on the long-term expected rate of return on OPEB plan investments of 7.0% and the municipal bond rate of 3.26% based on the S&P Municipal Bond 20 Year High Grade Rate Index as of December 31, 2019.

Changes in Assumptions - In the 2019 actuarial valuation, the discount rate changed from 3.81% to 3.98%. The trend assumption was updated. The mortality table was changed from the IRS 2017 Small Plan Combined Static Mortality table to the PubS-2010 mortality table for Police and Fire and the PubG-2010 mortality table for Non-Uniformed employees.

NOTE M - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The General Fund incurred expenditures in excess of appropriations in the following amounts for the year ended December 31, 2019:

General government - tax collection	\$ 36,253
Public safety - fire protection	111
Debt service	201

The excess expenditures above were covered by budgeted expenses exceeding incurred expenditures in other expense categories.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2019

NOTE N - RISK MANAGEMENT

The Township is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omission injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs. There were no significant reductions in insurance coverages of the 2019 year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE O - GUARANTEE OF FIRE COMPANY DEBT

During 2014, the Township guaranteed a \$4,000,000 loan made to the East Whiteland Township Volunteer Fire Association dated May 6, 2014 with a maturity date of May 6, 2042. As of December 31, 2019, the Township has determined that there is currently no evidence that the Association will default on its loan, and therefore, no liability is reflected in the financial statements.

NOTE P - PRIOR PERIOD RESTATEMENT

The Township implemented GASB Statement No. 84, Fiduciary Activities. The objective of GASB Statement No. 84 is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

For the fiduciary fund custodial activities, the Township has treated the beginning of year net position of \$375,442 as having been recognized in the period incurred. The Township has adjusted beginning net position for their fiduciary activities from \$0 to \$375,442.

NOTE Q - SUBSEQUENT EVENT

Subsequent to year end, a global pandemic due to the spread of the COVID-19 coronavirus caused the United States government to declare a national emergency. The pandemic has led to widespread voluntary and government-mandated closings of local stores and businesses, which has resulted in significant job losses. These job losses have the potential to have a significant impact on all aspects of Township operations including tax collections and the collection of sewer charges. In addition, due to the temporary closure of all businesses that are not deemed life sustaining, State tax revenues are also significantly decreased. This decrease could result in less grant money that is relied upon by local municipalities to fund specific projects. Overall, decreased funding could result in the Township having to curtail or eliminate some non-essential services and furlough employees.

Due to the pandemic, the financial markets have experienced significant market decline since the beginning of the year. These losses, if not regained, will have a significant detrimental impact on the value of the investments held by the Township's pension and OPEB plans. Decreases in the value of investments held by the Plans may result in a significant impact on the pension and OPEB liabilities and related deferred inflows and outflows related to the pension and OPEB plans. At this point, the extent to which COVID-19 will impact our financial condition or results of operations is uncertain and cannot be reasonably estimated at this time.

NOTES TO SCHEDULE

Changes in assumptions. In 2019 the mortality rates were updated to the PubS-2010 mortality tables, and the investment rate of return was revised to 7.5% from 8.0%. In 2017 the mortality rates were based on the IRS 2017 Static Combined Table for Small Plans. In prior years, the mortality rates were based on the RP-2000 Table for Males or Females.

NOTES TO SCHEDULE

Actuarially determined contribution rates are calculated based on the plan's most recent available Act 205 actuarial valuation report. The January 1, 2017 actuarial valuation report was utilized for the 2019 Minimum Municipal Obligation calculation. The January 1, 2015 actuarial valuation report was utilized for the 2018 and 2017 Minimum Municipal Obligation calculation. The January 1, 2013 actuarial valuation report was utilized for the 2016 and 2015 Minimum Municipal Obligation calculation. The January 1, 2011 actuarial valuation report was utilized for the 2014 and 2013 Minimum Municipal Obligation calculations. The following actuarial methods and assumptions were used to determine contribution rates.

Methods and assumptions used to determine contribution rates:

Actuarial valuation date	1/1/17	1/1/15	1/1/13	1/1/11
Actuarial cost method	Entry age	Entry age	Entry age	Entry age
Amortization method	Level dollar	Level dollar	Level dollar	Level dollar
Remaining amortization period	9 years	10 years	12 years	13 years
Asset valuation method	Market	Market	Market	Smoothing
Salary increases	5%	5%	5%	5%
Investment rate of return	8%	8%	8%	8%
Disability rates	None	None	None	None
Termination rates	W65	W65	W65	None
Mortality	IRS 2017 Static Combined	RP2000	RP2000	RRB92
Retirement age	50	50	50	50
Cost-of-living adjustments	None	None	None	None

NOTES TO SCHEDULE

Changes in assumptions: In 2019 the discount rate changed from 3.81% to 3.98%. The trend assumption was updated. The mortality table was changed from the IRS 2017 Small Plan Combined Static Mortality table to the PubS-2010 mortality table for Police and Fire and the PubG-2010 mortality table for Non-Uniformed employees. In 2018 the discount rate was changed from 3.55% to 3.81%.

Changes in benefit terms: In 2019, police officers retiring after 9/24/2019 will enroll in the active health plan. Also, Non-Uniformed Union employees who do not have 10 years of service as of 12/31/2022 will not receive post 65 benefits.

SCHEDULE OF OPEB PLAN CONTRIBUTIONS LAST THREE FISCAL YEARS

	_	2019	_	2018	-	2017
Actuarially determined contribution	\$	281,412	\$	1,068,349	\$	1,068,349
Contributions in relation to the actuarially determined contribution	_	381,412	_	12,396	_	227,399
Contribution (excess) deficiency	\$ <u></u>	(100,000)	\$_	1,055,953	\$_	840,950
Covered payroll	\$_	4,729,369	\$_	4,679,117	\$_	4,679,117
Contribution as a percentage of covered payroll		8.06%		0.26%	_	4.86%

NOTES TO SCHEDULE

Methods and assumptions used to determine contribution rates:

Actuarial valuation date	1/1/19
Actuarial cost method	Entry age
Amortization method	Level dollar
Remaining amortization period	26 years
Asset valuation method	Market value
Salary increases	4.5% to 5.0%
Investment rate of return	3.98%
Mortality	PubS-2010 mortality table for Police and Fire
	PubG-2010 mortality table for Non-Uniformed
Healthcare cost trent rates	5.5% decreasing to 4.0%

SCHEDULE OF OPEB PLAN INVESTMENT RETURNS LAST THREE FISCAL YEARS

	2019	2018	2017
Annual money-weighted rate of return, net of investment expense	23.39%	-8.98%	10.39%

NOTE TO SCHEDULE

DESCRIPTION OF NONMAJOR FUNDS OTHER GOVERNMENTAL FUNDS YEAR ENDED DECEMBER 31, 2019

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes as follows:

- The Street Light Fund is used to account for street light rents in the three developments that provide street lights.
- The Park Development Fund is used to account for park development projects.
- The State Fund is used to account for state revenues required to be used primarily for building and improving local roads and highways, including snow removal costs.

Capital Projects Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes as follows:

 The Transportation Improvement Fund is used to account for Act 209 Transportation Impact Fees that are collected by the Township and are used for transportation improvement projects.

STATISTICAL SECTION (Unaudited)

This part of East Whiteland Township's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures and required supplementary information says about the Township's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the Township's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the Township's most significant local revenues sources, the earned income tax, and property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the Township's current levels of outstanding debt and the Township's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Township's financial activities take place.

Operation Information

These schedules contain service and miscellaneous data to help the reader understand how the information in the Township's financial report relates to the service the Township provides and the activities it performs.

Sources:

Unless otherwise noted, the information in these schedules is derived from the Annual Financial Reports for the relevant year. The Township implemented GASB Statement No. 34 for fiscal year ended December 31, 2003; schedules presenting government-wide information include information beginning in that year.

Notes:

(1) Net (expense) revenue is the difference between expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parenthesis indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parenthesis indicate that program revenues were more than sufficient to cover expenses.

(2) Prior to 2015, the depreciation was not allocated to the specific governmental activities in the statement of Activities source document.
